What areas can we improve upon?

There is really no improvement needed but there were some times when I would have liked the sound level to be lower but other than that it sounded amazing.

The lighting was great but I don't think that you need the smoke. The lighting and the sound were more than enough.

Additional comments or suggestions.

Matt you were awesome. Everything ran so smoothly and you were more than helpful with everything else. You were willing to accommodate us and our guest with any request that we had and that was greatly appreciated. We are so glad that you were there to MC our event and we'll be passing your name on to everyone we know.
